

Advanced Digital Image Processing

Tien-Ying Kuo

1 Rules for submission of home assignment:

- Deadline: 10 minutes ahead of the lecture on the due date.
- Only **electronic submission** to e-learning website (<http://elearning.ntut.edu.tw/>) is required. 提交 No need to print out your homework.
- Put your homework as a **zip** file (named as **HW#_#.zip**, the first # is homework number, the second # is your student ID), which includes
 - *Report for homework (format .docx)*
 - * You should put a **cover page** with *HW#, your name, your student ID and your (thesis) adviser.* 建立封面
 - * You should present your homework **in the sequential order.** 建立目錄
 - * The **output pictures** should be saved using your programming codes, but **not** acquired by screen capture for the sake of resolution. (except the problems ask you to use screenshot.)
 - *C, C++ codes and project files*
 - * Your package should be self-contained and capable of compiling and run.
 - * Name your file using **HW#_#_#.cpp** style. For instance, **HW2_3_c_ii.cpp** stands for **Problem 3(c)(ii) of Homework 2.**
 - * Remove the folders of **debug** and **release**
 - * Remove the files related to "**vc++ intellisense database**" (.ncb)

2 If you have any questions, please contact TA via e-mail or in person at *Room 212 of Complex Building.*
